**Subject:** My e-mails

On reflection I want to apologize if my presentation was seen as an attack, threatening etc. In no way was I writing it with that result in mind

What I wanted to get across was how alarming, attacking & threatening it is when 11 property owners are finding out that Variances are being applied for on property that they own without their permission or knowledge. That their/my questioning of this has gone unanswered for almost a month.

Then they see a recently acquired Attorney not address the validity of the lack of standing for the application to the BZA at their 1/16 meeting, but instead recommends going behind doors & scheduling Public Hearings alarms & threatens them even further.

I'm sorry & regret if I've alienated or hurt anyone.  
Please forgive me if I have.

I'm upset, feel threatened, alienated...too but my feelings are inconsequential to doing what's right for our County. I feel aggrieved too but have no standing. If a disaster ensues because the ACP is built in our County as a Red Cross Certified Disaster Nurse it will be me that suffers seeing our torn lands & hearts firsthand. I fear having to live with this. That's the motivation for my strong position throughout this process...from seeing our Floodplain being amended to seeing it enforced.

My hopes & prayers is that everyone else wants the same.

Please see the BZA receives this e-mail too so they can be assured of my intentions in this process.

Sincerely,  
Vicki Wheaton

aka Abadidi
